GLASS CLUB
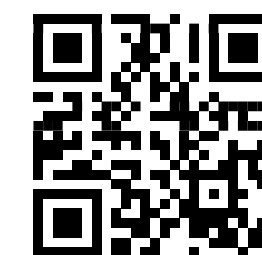

A SUBSIDIARY OF ALI CONTRACTOR

ABOUT US

GLASS CLUB is a subsidiary of Ali Contractor (1984) which is established in 2004, based in Rawalpindi, Pakistan. Our highly skilled craftsmen are well equipped with experience in designing, working with and installing glass.

We are passionate about supplying or creating exactly what our customers are looking for as per their requirement. We have tailored solution for restaurants, offices and religious buildings. We have exciting floral and contemporary designs for residential and commercial needs. Our clients include architects, interior designers as well as individuals who wants to enjoy the beauty of glass.

We believe in the value of long term personal relationship with the customers and suppliers. Our commitment is to satisfy the needs and expectations of our customers to whom we offer satisfactory services and high quality products with a sophisticated design in which attention is paid to the smallest detail.

We bring a variety of plain glass, local glass and imported glass to absorb, reflect and transmit light. Our premium quality Beveled glass, tempered glass, double glazing, and stain glass are ideal to use and come with several advantages. Our Acid-etched glass has distinguished smooth and satin-like appearance. All these 3D glass and Acid texture glass admit light to ensure a proper vision control. The colored glass block offers a sleek exterior with excellent view and moderate privacy. Our glass range brings clarity that is incomparable in its class as they add to aesthetics with their attractive shades. The extensive field of glass windows is valuable to control heat penetration by allowing daylight to pierce the interiors. All these glass windows are ideally suited for both practical and aesthetic point of view.
